

FORTUNA

AN 400 - 400 E

Bandknife Splitting Machine

The AN 400 - 400 E is a precise bandknife splitting machine for the leather goods industry, for similar materials in the shoe industries, and for interior equipment in the automotive industry.

The photo above shows the control panel with the integrated LCD display of model AN 400.

FORTUNA

AN 400 - 400 E

The AN 400 - 400 E is designed to meet the highest standards. The precision-made and ergonomically engineered machine ensures optimal performance quickly and with minimal fatigue. This machine is also suitable for pattern skiving.

Machine Versions:

- ▶ AN 400 with dial gauge of splitting thickness
- ▶ AN 400 E with LCD display of splitting thickness, automatic incision device (for belt ends), and permanent illuminated display of machine management features. Also includes leather measuring station.
- ▶ Cutting edge positioned permanently forward into two guides by forward-steering drums controllable by two magnifying glasses.

Technical Specifications	AN 400 - 400 E
Working width (mm)	400
Min. splitting thickness: roll (mm)	0.5
Min. splitting thickness: bar (mm)	0.2
Max. clearance (mm)	8.0
Noise emission (dB(A))	78
Infinitely variable feed drive, electronically adjustable (m/min)	2.2/24.6
Dimensions (l, w, h (cm))	160 x 100 x 130
Electrical connection (kVA)	4.4
Net weight	680
Gross weight (crate / case)	815/890 kg
Packing dimensions (l, w, h (cm))	175 x 115 x 146

Machine Equipment	AN 400	AN 400 E
