

FORTUNA SPA 750 G

Precision Bandknife Splitting Machine

The SPA 750 G is a next-generation high precision bandknife splitting machine with a simple visual user interface. It offers direct access to all functions and is ideal as a production machine in the rubber and plastics industry.

Touch screen with various additional parameters shown.

FORTUNA SPA 750 G

High quality precision engineering and ergonomically designed, the SPA 750 G ensures rapid fatigue-free performance of all operations.

Features & Benefits:

- ▶ Simple visual user interface with direct access to all functions
- ▶ Grinding device adjustments via visual touch screen interface
- ▶ Grinding disc exchange via visual touch screen interface
- ▶ Pivoted roller table in
- ▶ Pivoted roller table out
- ▶ Extra thin knife guidance for easy passage (also for stiff materials)
- ▶ Attachable knife support for hard material
- ▶ Reinforced knife back support for increased splitting precision at high splitting pressure
- ▶ Production data acquisition
- ▶ Adjustable feed roll pressure via pneumatic cylinders
- ▶ Digital measure gauge
- ▶ Network compatible with standard network cable (RJ 45 Plug on outside of cabinet for easy access)
- ▶ Data backup via USB stick (easy access on outside of cabinet)
- ▶ Service mode for easy diagnostics and failure detection

Technical Specifications:

Working width (mm)	750
Splitting thickness (mm)	0.9 / 35.00
Step precision (m/min)	0.01
With bar increase of (mm)	0.40
Waste material thickness (mm)	0.10 - 20.00
Feed drive (m/min)	0.5 - 24.0
Speed adjustable via foot pedal	✓
Noise emission (dB(A))	77.5
Band-knife speed (m/min)	50 - 250
Step precision (m/min)	1
Electrical connection (kVA)	5
Net weight (kg)	945
Gross weight (kg)	1165
Dimensions (l, w, h (mm))	1875 x 1096 x 1630
Machine packing dimensions (l, w, h (cm))	195 x 114 x 165
